

NECROS X Cybersecurity Incident Report

Total Attacks Detected: 11

Critical Attacks: 4

Most Targeted API: login_api

Most Suspicious IP: 177.23.44.8

AI SOC Incident Summary

SOC ANALYST REPORT

Total Attacks Detected:
11

Critical Threats:
4

High Severity Threats:
3

Targeted APIs:
login_api, internal_audit_api, old_payment_gateway, payment_api, upi_transfer_api,
legacy_transfer_api, admin_api

Threat Assessment:
Attackers are actively probing sensitive APIs.
Patterns indicate coordinated intrusion attempts.

Recommended SOC Actions:

- Enable stricter API authentication
- Monitor zombie APIs closely
- Increase honeypot deployment
- Activate defensive response escalation
